

**Making A
Difference:**
N3 RELIEF IN 3
STEPS

2021

Gift of the Givers
FOUNDATION

TRADEROOT
ACTIVE

There isn't a South African that hasn't felt the impact of recent protest action in KwaZulu-Natal and Gauteng, be it directly or indirectly. From businesses to the supply line, we have seen the functioning of crucial sectors come to a standstill.

The N3 highway is an artery carrying much of the lifeblood of South Africa. Every day, the road connecting Johannesburg and Durban (South Africa's largest and third-largest cities) is filled with logistics partners transporting goods imperative for the survival of millions of people.

With the N3 being closed for a week due to protest action, essential goods and services were halted.

Businesses are rallying to make a difference to as many lives as possible in order for businesses and supply chains to return to optimal operating conditions and getting help to where its most needed.

As a social investment project of Traderoot Technologies; Traderoot Active is proud to announce that we are focusing all our efforts on a campaign to assist our country in its time of need. We are assisting with our existing platform Traderoot Active to help all parties facilitate the collection of funds.

“We call upon the Tradeoot Family, all our partners and supporters to stand together with the world and make a difference.”

We have chosen to support Gift of the Givers. They consistently show unending kindness in the face of adversity and have established themselves as a trusted partner in time of need. To donate please follow the steps provided below. Please note; where you have the option to enter a reference please enter “N3 Corridor” as the reference.

Our goal is to assist where we can and have a positive impact on restoring some kind of normality to the regions. Traderoot Active will be running this campaign until mid-September.
